

Who We Are

Risen Scepter Ministries International was incorporated on September 14th, 2000.

RSMI is first to be a fellowship of believers unified by their love for and commitment to the Lord Jesus Christ, determined to declare His name to the current generation in every nation in a culturally relevant way.

RSMI's primary goal is to do its part to enhance and extend the Kingdom of God through church planting and the training of leaders that they might correctly train their people. Moreover, we hope that this will result in those trained in the Body of Christ doing the work of the ministry according to the Apostle Paul's letter to the Ephesian church in chapter four, verses eleven and twelve. This determination is born of the belief that our sovereign God places each successive generation of believers according to His good pleasure and purpose that they might impact their world for Christ.

RSMI is to be a non-denominational expression of the universal body of Christ. We desire to build an assembly of diverse believers culturally and economically, where no one is intimidated or kept from fellowship because of background, clothing, money, or past failure. This assembly is to effectively enact change in their communities through involvement by applying biblical principles in every area, including individual lives, families, local communities, and state/provincial and national governments. Our determined purpose is that we see such change bring about the shelter of the homeless, the feeding of the poor, and service to the orphan and the widow. Along with that, we will see the training up of those that will take their places not only in ministry but every area of life, including secular employment and governmental positions; the changing of nations for the betterment of their people and the glory of Christ.

RSMI is committed to actively seeking those who have been forgotten, disenfranchised, or set aside; those who have been hurt and emotionally scarred due to others' actions, their own wrong choices, or simply from living in a fallen world steeped in sin. To those, it will be proclaimed their value and worth, which is to be found in the image that God has placed in them and the blood of the Savior that was shed on their behalf.

RSMI does now and will in the future uncompromisingly declare the Word of God, devoid of the shallowness that has infused itself with much of contemporary Christianity, yet with a tenderness that expresses the love of the Father and the compassion of Christ.

Further, the Word is now and will be not only proclaimed verbally but also in deed to those that the Lord has gathered to us that they might find their place of ministry and family and therefore become a living expression of that love.
